

Illuminated Magnifier

Product Images

Description

FEATURES

- Large magnifier diameter of 157mm combined with 1.9x (3.5dpt) magnification allows the user to focus on fine details through a large-scale view
- 6,500°K LEDs ensure less shadow formation and optimal colour rendering
- The exceptional Ra of >93 accurately displays the high quality of white light & the R9 value >90 describes how accurately the user can differentiate between red tissues
- Reinforced friction joints & an aluminium spring balanced arm allows a broad reach of up to 142cm without the lamp head drifting, allowing smooth handling for users to examine typically harder to reach places with ease
- A five-star base allows the light to be easily positioned
- The light head is sealed to IP20, protecting from ingress of dust & moisture
- Uses less than 50 watts of power, & with >50,000 hours of LED life, saving money on energy & maintenance
- A durable lens cover protects the magnifier lens from dust or potential scratches. Magnifiers can be a potential fire risk if left in direct sunlight

STANDARD COLOURS

- White
