Drug & Medicine Storage

Drug & Medicine Cabinets - Shelves & Door Shelves

Features

- Independently tested to BS 2881: 1989 (Security Level One) Specification for Cupboards for the Storage of Medicines in Health Care Premises
- BS 3621 anti-pick & drill, key retaining five pin cylinder lock (supplied with three keys)
- Adjustable & removable shelves (190mm deep) & door shelves (75mm deep)
- Key profile unique to Hospital Metalcraft Ltd, offering 250,000 differs
- Compatible with CLIQ®, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Optional Digital Push Button Lock (does not conform to BS 2881: 1989)
- 12v DC LED lighting / warning system (model dependent) with volt-free contact to allow connection to light / nurse call systems. Requires 100v - 240v ~, 50Hz-60Hz, 0.3A Mains supply. Supplied fitted with a UK 3 pin plug. CE marked & conforms to the low voltage directives 73/23/EEC & 89/336/EC
- Lighting transformer housing adds 105mm to the overall height
- 0.9mm mild steel welded construction
- Mounting holes provided in back (fixings not included)
- Modular design allows for easy interchange with HTM 63 storage systems
- Compatible with our range of CD cabinets for the storage of Controlled Drugs

Auditable Access Control for Medicines Management

CLIQ®

What Is CLIQ®?

CLIQ® is the very latest in user-friendly, web-based security management. Part of the Protec^2 CLIQ® from Abloy range, CLIQ® is designed for remote sites, enabling the commissioning, programming and full administration of security management centrally via web-based software.

How Does It Work?

CLIQ® integrates electronics into mechanical cylinders and keys, providing a security solution that can be managed remotely. In short, this works like an electronic handshake; when the key is inserted it engages with the cylinder, sending a random number back to the key. The key replies with an encrypted response which is decrypted by the cylinder and if valid the cylinder then allows access. It is important to remember that the mechanical combination must match as well as the digital combination. CLIQ® allows a single key to be used with multiple cabinets or trolleys.

System Features

- Secure - Provides dual security through the patented Protec^2 CLIQ® from Abloy mechanical disc cylinders and keys along with DES encryption, a recognised electronic standard
- Easily Programmable - Keys can be added quickly and programmed to specific time and date schedules
- Fully Auditable - Audit trails can be accessed from both the cylinder and key
- Reduces Keys - One key can be programmed to open multiple cabinets or trolleys
- The CLIQ® environment works in an Amazon cloud hosted server maintained and supported by Abloy allowing remote user access via a secure connection from anywhere in the world
- Cost Effective - Low installation & maintenance costs along with a long lifecycle (requires no wires or system updates, power for the cylinder is provided by the key)
- Easily Retrofitable - CLIQ® can be used with a variety of locking solutions including euro lock profile cases, padlocks, camlocks & furniture locks

System Benefits

- Save valuable nursing time which can be used to deliver patient care
- Reduces delay in administering medication
- Improves drug & medicine security
- No more unlocked drug & medicine cabinets
- Eliminates the need to replace locks as a result of lost keys
- One key can be programmed to open multiple cabinets or trolleys
- The key is made personal to that member of staff, resulting in increased ownership and a reduction in the number of keys lost
- Easy to apply remote management, saves money and has the ability to cover several hospitals
- Time and date based access rights, with a full audit trail allow for full visibility of when visits were made
- New keys can be added to the system quickly and easily, removal of lost ones is hassle-free
- Reduction in time spent looking for the person holding the key

Process Flow

Start of Shift - Key Validation & Authorisation
Recurring validation forces users to place their key into the Wall Programming Device. User authorisations are uploaded to the key

During The Shift - Operation
The key will only open cabinets where access permissions have been granted. Each time the key is used in a cabinet fitted with an PROTEC^2 cylinder, an audit trail is created on both the key and cylinder

End of Shift - Automated Data Transfer
Key is placed into the Wall Programming Device. Previous key transactions are automatically downloaded from the key and stored in the audit trail archive

System Components

CLIQ® Key
- Provides dual security through the patented PROTEC2 mechanical disc cylinders & keys, along with DES encryption, a recognised electronic standard
- Thin, light but incredibly strong key

PROTEC^2 Lock Barrel
- A bump proof mechanism
- Exceptionally smooth key entry & operation

Wall Programming Device
- Updates keys remotely (linking the server & keys)
- Offers high level data encryption
- Allows the use of recurring validation, forcing users to validate their keys at the start of their shift whilst automatically downloading audit trails which are relayed to the server

Traka21
- Sophisticated stand-alone key management system to control the issuing of keys
- Keys are accessed using PIN number technology
- Holds up to 21 keys or keysets

Controlled Drug Cabinets

Features

- Exceeds the statutory requirement for the storage of controlled drugs "The Misuse of Drugs (Safe Custody) Regulations 1973" (with the exception of CD045 & CD145)
- BS 3621 anti-pick & drill, key retaining six pin cylinder lock (supplied with two keys & identification card)
- Key profile unique to Hospital Metalcraft Ltd, offering 250,000 differs per profile
- Compatible with CLIQ®, integrating electronics into high security mechanical disc cylinders & keys, combining electronic security & remote management in real time
- Can be supplied with a micro-switch to allow connection to remote lighting / nurse call system by others (CD905), or supplied with a 12v DC LED lighting / warning system with volt-free contact to allow connection to light / nurse call systems. Requires 100v - 240v ~, 50Hz -60Hz, 0.3A Mains supply. Supplied fitted with a UK 3 pin plug. CE marked & conforms to the low voltage directives 73/23/EEC & 89/336/EC
- Lighting transformer casing adds 105mm to the overall height
- 1.5mm mild steel, seamless welded construction
- Mounting holes provided in back (fixings not included)
- Adjustable & removable shelves
- Security of models CD005, CD010 & CD015 can be enhanced by concealing inside one of our 'Drug & Medicine Cabinets'
- Modular design allows for easy interchange with HTM 63 storage systems

Standard Colours

- Paint - White

Options / Accessories

- CD905 - Micro-switch to connect to remote light box / alarm
- CD910 / CD911 / CD913 - 12v DC LED Lighting / Warning System (for compatibility see tables below)
- PCB - Buzzer Alarm (Factory Fit to Cabinets with Lights Only)

Joining Kits - Drug & Medicine Cupboards

Features
• Allows two cupboards to be joined together
• 870mm joining kit supplied with a full width worktop (2 units)

MC/JK/870

Item	Description
MC/JK/870	Joining Kit - 870mm High Unit
MC/JK/1870	Joining Kit - 1870mm High Unit

Remote Light Box

Features
• Compatible with Bristol Maid Drug & Medicine / Controlled Drug Cabinets where a light has been fitted
• Provides a remote visual indication when the cabinet is open
• Models available for surface or flush mounting (100 x 50 x 150mm - w x d x h)
• Units fitted without a light require a separate micro-switch & a 12v DC supply

PC/RLBS   PC/RLBF

Item	Description
PC/RLBS	Remote Light Box - Surface Mounted
PC/RLBF	Remote Light Plate - Flush Mounted

Digital Push Button Lock

Features
• Requires a five-digit code to operate (set by customer)
• Cabinets fitted with this lock will not conform to BS2881: 1989 (Security Level One) Specification for Cupboards for the Storage of Medicines in Health Care Premises

Item	Description
DGL	Digital Push Button Lock

Dividers - Drug & Medicine Cupboards

Features
• Spare / replacement dividers for cupboards supplied with shelves & dividers
• 100mm high dividers locate into slots on the shelves, adjustable at 25mm increments

Shelf not supplied

Item	Description
MC/DIV	Dividers - Set of 16

Micro Switch

Features
• Micro switch to allow connection to nurse call system

CD905

Item	Description
CD905	Micro Switch - Controlled Drug Cabinets
PC905	Micro Switch - Drug & Medicine Cabinets

Buzzer Alarm

Features
• Replacement circuit board with buzzer
• Compatible with Bristol Maid Drug & Medicine / Controlled Drug Cabinets where a light has been fitted
