Traka21 iFob
Once attached to an iFob with a robust security seal, individual keys or keysets are assigned a specific receptor within the Traka cabinet & locked in place until released by an authorised user.
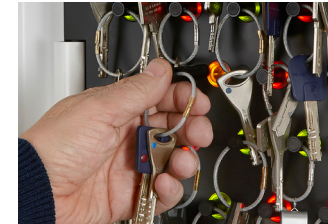

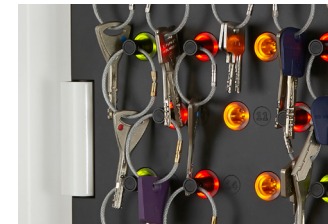

Operation

1. Access
User enters unique PIN code to gain access to the cabinet

2. Key Removal
Keys & keysets are individually locked within the cabinet. Green LED's indicate keys which the user can access. Red LED's indicate keys that the user cannot access. These will remain locked in place

3. Key Replacement
Amber LED's indicate the return position for the key
